To Whom It May Concern:

Pre COVID-19, Mount Herman Ministries agreed to allow Premier Mobile to station the 'clinic on wheels' in their parking lot so Nadine (Deanie) Singh, ARNP could provide health care to those who had no insurance, no primary care physician, and little or no money.

Residents quickly realized Deanie was indeed helping people; really listening and treating their medical needs with knowledge and compassion. Some made lifestyle changes when Deanie recommended they do so and they returned for follow-up care if she asked them to. There are testimonies of lives saved.

Premier Mobile participates in Health Fairs and community festivals. Together with her team of caregivers, she visits Immokalee in Collier County and regularly visits six underserved communities in Lee County. She accepts referrals and walk-ins. Word of the excellent health care given by Premier Mobile continues to spread. Deanie has been and remains a trusted provider.

Premier Mobile Health Services is also a trusted partner of Lee Health and is a United Way Partner Agency.

The focus remains helping every individual patient realize their best health. When a medical specialist is needed, Deanie navigates the path for her patient. Her team of caregivers follow her lead, each one a dedicated medical professional committed to improving the quality of life with improved health care.

Premier Mobile was a tremendous asset when COVID-19 reached Lee County; their doors remained open, and vaccinations were given along with wellness checks and facts to keep our community safe.

What a fascinating journey Deanie Singh is experiencing. She purchased her mobile clinic from E-Bay. She could not wait for others to open doors for her to do so, she saw the need and she responded. If Deanie measures success by the number of healthier individuals and improved lives influenced by her medical knowledge and compassion, she is quite successful indeed.

Deanie however will not stop; there are more people to help, many in need. She will continue to provide medical care to all she is able to reach. She gives to her community, she meets them where they are, medically and socially; she empowers her patients through knowledge. Deanie trains future medical professionals, she helps providers understand the true medical needs of communities, she is an advocate for every single Premier Mobile patient.

It is a privilege to share the good work of Premier Mobile Health Services.

Respectfully,
